

Thunderbird Rally 2025 Corrections

On page 29, at 0.10km in the Fairview-Cawston regularity, the pause is mentioned in the instruction, but not in the speed/time column, and was not included in the time calculation. Please start the regularity 10 seconds early in order to give time for the stop.

On page 36, the distances for the last 2 instructions in the transit to the Princeton gas stop are wrong. They should be:

46.20km (28.71mi), BR at TS

46.39km (28.83mi) L into near end of Chevron
